This is just my intro to my nice paper.

Table 1.1: This is a table

| Democracy Index | count | pct | pct_cumm |
|-----------------|-------|-------|----------|
| veryLow | 53 | 33.76 | 33.76 |
| low | 31 | 19.75 | 53.50 |
| medium | 53 | 33.76 | 87.26 |
| good | 0 | 0.00 | 87.26 |
| veryGood | 20 | 12.74 | 100.00 |

1 Exploring Tables

Another section. I will use a footnot now ¹. I will soon use cross-ref.I will soon use cross-ref.I will soon use cross-ref.I will soon use cross-ref. I will soon use cross-ref. I will soon use cross-ref.I will soon use cross-ref.I will soon use cross-ref. I will soon use cross-ref. I will soon use cross-ref. I will soon use cross-ref.

I will soon use cross-ref.I will soon use cross-ref: as we see in Section 1.1.

1.1 Exploring Categorical Data

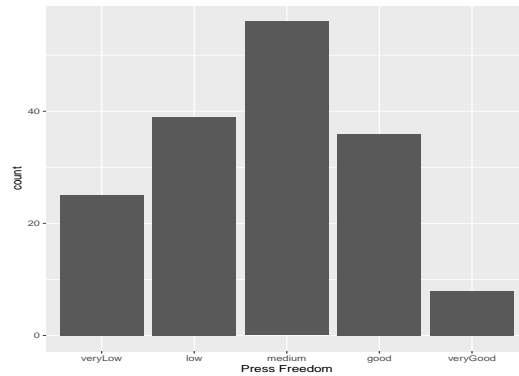

Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.

I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.

You can see the statistics of a categorical variable in Table 1.1.

You can see this variable plotted in Figure 1.1 on page 3.

¹This is a footnote.

1.2 Exploring Numerical Data

Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work. Here, I continue doing this nice work, I hope you like it and read it. It has been a very hard work.

| Statistic | N | Mean | St. Dev. | Min | Pctl(25) | Pctl(75) | Max |
|----------------|-----|------|----------|------|----------|----------|-------|
| DemocracyIndex | 157 | 2.38 | 1.30 | 1 | 1 | 3 | 5 |
| mili_pctGDP | 166 | 2.07 | 1.55 | 0.20 | 1.10 | 2.48 | 10.00 |

It would be good to see a boxplot, check Figure 1.2 below.

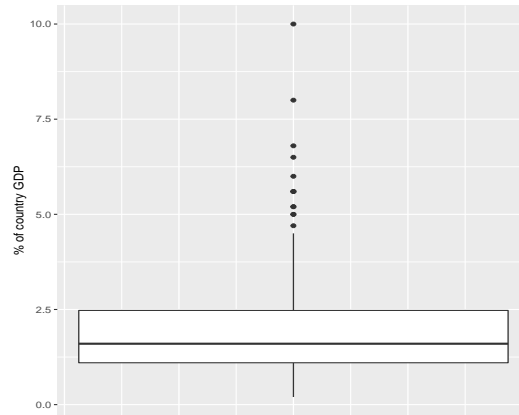

Figure 1.2: Money spent per country on Military stuff

Boxplots were introduced by Tukey (1977).

2 My Regression

Several times we need regression.

This is a nice summary for two regressions:

You can also do this: You can also do this:You can also do this:You can

also do this: You can also do this:You can also do this:

Table 2.1: Regression Models

| | <i>Dependent variable:</i> | |
|-------------------------|----------------------------|-------------------------|
| | mili_pctGDP | |
| | (1) | (2) |
| DemocracyIndex | -0.423*** (0.090) | -0.535*** (0.128) |
| IndexofEconomicFreedom | | 0.230 (0.149) |
| Constant | 3.083*** (0.245) | 2.730*** (0.291) |
| Observations | 157 | 154 |
| R ² | 0.124 | 0.126 |
| Adjusted R ² | 0.119 | 0.114 |
| Residual Std. Error | 1.464 (df = 155) | 1.434 (df = 151) |
| F Statistic | 22.008*** (df = 1; 155) | 10.857*** (df = 2; 151) |

Note:

*p<0.1; **p<0.05; ***p<0.01

Table 2.2: Regression Models

| | <i>Dependent variable:</i> | |
|-------------------------|---------------------------------------|-------------------------|
| | Military Expenditure (percent of GDP) | |
| | (1) | (2) |
| Democracy | -0.423*** (0.090) | -0.535*** (0.128) |
| Economic Freedom | | 0.230 (0.149) |
| Constant | 3.083*** (0.245) | 2.730*** (0.291) |
| Observations | 157 | 154 |
| R ² | 0.124 | 0.126 |
| Adjusted R ² | 0.119 | 0.114 |
| Residual Std. Error | 1.464 (df = 155) | 1.434 (df = 151) |
| F Statistic | 22.008*** (df = 1; 155) | 10.857*** (df = 2; 151) |

Note: *p<0.1; **p<0.05; ***p<0.01

I hope you like what you see in the Table 2.1 and in Table 2.2. You can learn more on regression in other book (Petrie, 2016, 150-160)
